JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## MEXICO.

*Report from Coatzacoalcas—Inspection and fumigation of vessels.*

Acting Assistant Surgeon Thompson reports, April 22:

Week ended April 21. Three vessels inspected and passed. One vessel fumigated.

No illness occurred on these vessels while in port.

*Report from Progreso—Sanitary conditions—Yellow fever at Ticul.*

Acting Assistant Surgeon Harrison reports, April 15:

The sanitary condition of this port appears to be fairly good. No contagious diseases present at Progreso.

One fatal case of yellow fever has been reported recently in Ticul, a small town in the interior.

*Report from Tampico—Inspection and fumigation of vessels.*

Acting Assistant Surgeon Stowe reports, April 22:

*Week ended April 21.*

Vessels inspected and passed.....	5
Bills of health issued.....	5
Members of crews of outgoing vessels inspected.....	155
Passengers of outgoing vessels inspected.....	5
Vessels fumigated prior to sailing.....	3

No cases of quarantinable disease occurred during the week.

*Report from Veracruz—Smallpox along railway lines—Typhus fever in Mexico City.*

Acting Assistant Surgeon Carter reports, April 19:

Week ended April 18. One case of smallpox was reported, with 1 death. The case was isolated. It is reported that smallpox is prevalent on most of the lines of railroad throughout the country, and an order has been issued for the vaccination of all railroad employees on the several lines. Smallpox is very prevalent in Mexico City.

Yellow fever work is still going on with regularity, and no new cases have been reported.

A number of cases of typhus fever exist in Mexico City. There have been a number of deaths from the disease. Passengers coming from that point are being very closely inspected. The temperatures are being taken of all steerage passengers bound for New York and the Southern States.

## NICARAGUA.

*Reports from Bluefields, fruit port.*

Acting Assistant Surgeon Layton reports:

Week ended April 14. Present officially estimated population, 2,500. General sanitary condition of this port and the surrounding country during the week, good.
